Raymond E. Barsch
Executive Officer

The California Water Commission serves as a policy advisory body to the Director of Water Resources on all California water resources matters. The commission provides a water resources forum for the people of the State, acts as a liaison between legislative and executive branches of State government, and coordinates federal, State, and local water resources efforts.

INTRODUCTION

Bulletin 170 is an annual online guide to the Department of Water Resources' publications. Every year, the Department issues technical bulletins, reports, and other publications documenting the measurement, protection, use, and management of California's water resources.

Bulletin 170-98 includes summaries of all bulletins, district/division reports, newsletters, and brochures issued during 1998. Bulletins and reports marked O.P. (out-of-print) may be viewed at the libraries listed on pages 47-53.

All publications may be obtained from:

State of California
Department of Water Resources
Bulletins and Reports
P.O. Box 942836, Sacramento, CA 94236-0001
or
1416 Ninth Street, Third Floor
Sacramento, CA 95814
(916) 653-1097

If a price is shown, please make checks or money orders payable to the **Department of Water Resources**. California residents should add the current sales tax.

Bulletin 120 Series

*For information on Bulletin 120, contact the
Division of Flood Management at (916) 574-2783.*

cdec.water.ca.gov/snow/bulletin120/

Water Conditions in California

16 pages

Free

Bulletins in the 120 series (Reports 1 through 4) are published in February, March, April, and May updating records of statewide precipitation, snowpack, reservoir storage, and streamflow. The four issues forecast water supply for two periods: (1) the April-July snowmelt period and (2) the remainder of the water year (from the date of forecast to September 30).

120-98: Reports 1 - 4
(for 1997-98 water year)

Bulletin 132 Series: Management of the California State Water Project

For information on Bulletin 132, contact the State Water Project Analysis Office at (916) 653-4631.

www.swpao.water.ca.gov/other/other.html

The Bulletin 132 series includes several annual publications about the status of the State Water Project. The main report covers the Project's continuing progress, water and power management, water conditions and deliveries, recreation, and fish and wildlife activities. Appendix B, *Data and Computations Used to Determine Water Charges*, is included.

Printed separately are Appendix A, the *Annual Financial Report*, Appendix B, *Data and Computations Used to Determine 1999 Water Charges*, Appendix D, *Costs of Recreation and Fish and Wildlife Enhancement*, and Appendix E, *Water Operations in the Sacramento-San Joaquin Delta*.

Bulletin 132-96
Management of the California State Water Project
August 1997
348 pages
\$15

Today, 29 long-term water contracts are in effect for eventual delivery of 4.2 million acre-feet annually. Bulletin 132 reports the progress of planning studies for future water and power supplies, construction progress, litigation, financing and future costs, the Monterey Agreement, the Bay-Delta Accord, and other areas of interest.

Appendix A: 1998 Annual Financial Report
October 1998
14 pages
Free

This document contains the financial statements of the State Water Resources Development System. These are based on the principles and requirements of the Burns-Porter Act and provisions of the California Water Code, the Water Supply Contracts, and the Bond Resolution.

Bulletin 132 (continued)

Appendix B: Data and Computations Used to Determine 1999 Water Charges

July 1998

136 pages

Free

This document includes the annual review of all water supply and financial aspects of the State Water Project as required and used by the State in determining the long-term water supply contractors' statements of charges paid.

Appendix D 132-94: Costs of Recreation and Fish and Wildlife Enhancement

September 1997

14 pages

Free

This document includes the annual costs of all SWP recreational expenditures, including land acquisition.

Appendix E 132-94: 1993 Water Operations in the Sacramento-San Joaquin Delta

June 1998

92 pages

\$5

This document describes SWP operations of the Sacramento-San Joaquin Delta and major SWP storage reservoirs as affected by water conditions, water demand, facility repairs, and Delta water quality standards.

Bulletin 160 Series

*For information on Bulletin 160, contact the
Statewide Planning Branch (916) 653-7101.*

rubicon.water.ca.gov/b160index.html

California Water Plan: Bulletin 160-98

November 1998

850 pages

Volumes 1 and 2, and Executive Summary

First set is free. Subsequent copies cost \$25.

In 1957, the Department published Bulletin 3, the *California Water Plan*. Bulletin 3 was followed by the Bulletin 160 series, published seven times between 1966 and 1998 to update the *California Water Plan*.

Bulletin 160 assesses California's agricultural, environmental, and urban water needs and evaluates water supplies to quantify the gap between existing and forecasted future water demands and the corresponding water supplies. The series presents a statewide overview of current water management activities and provides water managers and others with a framework for making water resources decisions.

Bulletin 160 is updated and published every five years as mandated by law.

DIVISION OF PLANNING and LOCAL ASSISTANCE Sacramento

For information about Division of Planning and Local Assistance publications, call (916) 323-4510.

Also see www.dpla.water.ca.gov/cgi-bin/publications/

***Drainage Management in the
San Joaquin Valley: A Status Report***
February 1998
64 pages
Free

In 1990, the federal/State interagency San Joaquin Valley Drainage program recommended a plan that addressed environmental concerns and measures for drainage management but did not address the Valley's long-term salt balance issue. A 1990 plan was used as the primary guide for the San Joaquin Valley Drainage Implementation Program. This report evaluates and updates the 1990 plan and examines options for salt use.

***Quality Assurance Management Plan for Environmental Monitoring
Programs, Quality Assurance Technical Document 5***
June 1998
24 pages
Free

The development and implementation of the Quality Assurance Management Plan is required by the Department's quality assurance/control policy for environmental monitoring programs. The Department has developed a QAMP documenting how it will plan, implement, and assess the effectiveness of quality assurance and quality control operations applied to the Department's environmental monitoring programs.

***The North Bay Aqueduct Barker Slough Watershed
Water Quality, Phase I Report***
July 1998
100 pages
Free

This report summarizes the first 12 months of the MWQI Committee's follow-up activities in the NBA watershed.

Division of Planning and Local Assistance (continued)***Municipal Water Quality Investigations Program 1997 Compendium of Water Quality Investigations in the Sacramento River Watershed, Sacramento-San Joaquin Delta, and San Francisco Bay Area*****August 1998****147 Pages****\$10**

This report presents 450 sampling sites in the Sacramento River watershed, Sacramento-San Joaquin Delta, and the San Francisco Bay area. These sites are sampled as part of 54 water quality programs conducted by federal, State, and local agencies. This report covers water quality programs and sampling sites of organizations that responded to an initial survey.

Quality Assurance Guidelines for Preparing Quality Assurance Project Plans, Quality Assurance Technical Document 6**August 1998****62 pages****Free**

These guidelines describe requirements for preparing Quality Assurance Project Plans involving environmental measurement studies conducted by the Department. More specifically, this document focuses on projects involving physical and chemical measurements of water quality.

Technical Elements of CIMIS**December 1998****63 pages****Free**

This publication explains the technical aspects of the California Irrigation Management Information System, including station site selection and maintenance, sensor specifications, calibration, data collection, quality control, and the equations used to estimate reference evapotranspiration.

**NORTHERN DISTRICT
Red Bluff**

For information about Northern District publications, call (530) 529-7300.

***Contribution of Frenchman Lake Spill to the Fishery of Little Last
Chance Creek*****December 1998****51 pages plus Appendices A-C****Free**

This report summarizes a 1997 study of Frenchman Lake spillway fish emigration. The results are presented in the context of other Upper Feather Basin fishery and recreation information the Department has collected. The report also provides information on the status of Frenchman Lake and Little Last Chance Creek fisheries, especially following the 1991 chemical treatment of these waters to eradicate northern pike. The findings are timely given the State's interest in restoring Lake Davis and Big Grizzly Creek following the controversial chemical treatment there in 1997.

Butte Valley Wildlife Area Well Interference Investigation**December 1998****102 pages****Free**

Under contract to the Department of Fish and Game, DWR conducted a series of aquifer performance tests and monitored groundwater levels in Butte Valley in 1996-97. Because of the unique geologic structures found in the area, hydraulic continuity between particular groups of wells exists, and mutual well interference can cause slightly increased operational drawdowns. The report provides some recommendations to limit adverse impacts.

**SAN JOAQUIN DISTRICT
Fresno**

For information about San Joaquin District publications, call (559) 230-3300.

San Joaquin Valley Drainage Monitoring Program 1993
September 1998
38 Pages
Free

This 31st annual report presents statistical data on the quality and quantity of agricultural drainage water in the San Joaquin Valley. The Department collects and interprets these data to identify drainage problem areas and to plan drainage management projects.

SOUTHERN DISTRICT Glendale

*For information about Southern District publications,
call (818) 543-4600*

***Final Supplemental EIR No. 1 For the East Branch Extension Project - Phase I
Covering the Redesign of Portions of the San Geronio Pass Water Agency
Water Importation Project***

March 1998

120 pages

O.P.

This report documents the public review and comments on the East Branch Extension Project Phase I Supplemental Draft EIR. It contains copies of the written comments received and responses to the comments.

***Final Documents Approving the East Branch Extension Project - Phase I
Final EIR***

April 1998

88 pages

\$10

This document contains the Department of Water Resources' certification of compliance with the California Environmental Quality Act and its Findings; Statement of Overriding Considerations; and adopted Mitigation Monitoring and Reporting Program for the East Branch Extension Project-Phase I. Also included is the Department's Notice of Determination, which constitutes the final agency action for approval of the project.

***Watermaster Service in the Central Basin, Los Angeles County,
July 1997-June 1998***

October 1998

100 pages

\$6.50

The publication is prepared annually to report on water supply conditions in the Central Basin. It includes information on groundwater extractions, use of imported and recycled water, replenishment operations, and administration of the Water Exchange Pool; and a financial report on Watermaster Service.

Southern District (continued)

*Watermaster Service in the West Coast Basin, Los Angeles County,
July 1997-June 1998*

October 1998

74 pages

\$6

This publication is prepared annually to report on water supply conditions in the West Coast Basin. It includes information on groundwater extractions, use of imported and recycled water, replenishment operations, and administration of the Water Exchange Pool; and a financial report on Watermaster Service.

ENVIRONMENTAL SERVICES OFFICE Sacramento

*For information about ESO publications,
call (916) 277-7541*

Report of the 1994 Entrapment Zone Study, Technical Report 56
January 1998
135 pages
Free

This report comprises the final report for the study of the entrapment zone conducted by a multidisciplinary team of scientists. The entrapment zone is considered an important region of the San Francisco estuary.

Delta Agricultural Diversion Evaluation Summary Report, 1993-1995, Technical Report 61
June 1998
80 pages
Free

This report contains evaluations of the Interagency Ecological Program for the Sacramento-San Joaquin Estuary Delta Agricultural Diversion Evaluation effects of in-Delta diversions on resident and anadromous fish.

Recommendations Regarding Comprehensive Aquatic Monitoring in the Sacramento-San Joaquin Estuary and Its Tributaries, Technical Report 58
August 1998
20 Pages
Free

This report includes the examination of the current aquatic monitoring efforts, identifies significant gaps in those efforts, and reports the finding of the Sacramento-San Joaquin estuary and its tributaries.

DIVISION OF FLOOD MANAGEMENT
Sacramento

*For information about Division of Flood Management
publications, call (916) 574-2605.*

Directory of Flood Control Officials
October 1998
117 pages
Free

This directory lists local, county, State, and federal districts and agencies involved in flood control, flood operations, and related emergency response efforts.

**OFFICE OF STATE WATER PROJECT PLANNING
Sacramento**

call (916) 653-1099.*

Also see www.delmod.water.ca.gov

***Methodology For Flow and Salinity Estimates
in the Sacramento-San Joaquin
Delta and Suisun Marsh
July 1998
180 Pages
Free***

This is the 19th annual progress report of the Department of Water Resources' San Francisco Bay-Delta Evaluation Program, carried out by the Delta Modeling Section. It documents progress in the development and enhancement of the Delta Modeling Section's computer modeling efforts and reports the latest findings of studies conducted.

DIVISION OF OPERATIONS AND MAINTENANCE Sacramento

For information about Division of Operations and Maintenance publications, call (916) 653-8583.

State Water Project Annual Report of Operations 1992

March 1998

70 pages

\$4

This is the 19th annual report summarizing the water and energy operation of the California State Water Project. This report includes historical data, summarizes the operations of Project facilities during 1992, and includes any revision to data previously published in the monthly report, *State Water Project Operations Data*.

State Water Project Operations Data

March 1998

43 pages

\$4

This monthly report summarizes the water and energy operations of the State Water Project.

State Water Project Operations Data

April 1998

43 pages

\$4

This monthly report summarizes the water and energy operations of the California State Water Project.

DIVISION OF PLANNING and LOCAL ASSISTANCE Sacramento

For information about these free DPLA publications, call (916) 323-4510.

Groundwater: The Hidden Water Supply

This brochure gives an overview of groundwater programs in the lower Sacramento Valley. See the Web site at:

www.dpla.water.ca.gov/cgi-bin/supply/gw/main.pl

Offstream Storage: One Piece of California's Water Puzzle

Proposition 204 authorized the Department to investigate the feasibility of offstream storage upstream of the Delta. This brochure describes the various investigations now under way.

Water Facts

Water Facts are short, easy-to-read reports on water resources issues published periodically.

Number 1: Groundwater in Fractured Hard Rock, April 1991

Number 2: 7 Steps for Managing Groundwater Supplies, April 1998

Number 3: Adjudicated Groundwater Basins in California, January 1996

Number 4: Groundwater Management Districts or Agencies in California, January 1996

Number 5: California Well Standards—Questions and Answers, June 1992

Number 6: Groundwater, June 1993

(Numbers 7, 8, 9) not yet published

Number 10: Groundwater in California, March 1996

Number 11: Water Transfers, March 1996

Number 12: Water Conservation, updated January 1999

Division of Planning and Local Assistance (continued)

Number 13: Financing Local Projects, March 1996

Number 14: Water Recycling, March 1996

Number 15: Drainage Management, March 1996

Number 19: The California Water Plan, March 1996

Number 20: Salt Balance in the San Joaquin Valley, March 1998

Number 21: California Irrigation Management Information System, April 1998

OFFICE OF WATER EDUCATION

*For information on these free OWE publications, call
(916) 653-6192*

[Also see www.dwr.water.ca.gov/](http://www.dwr.water.ca.gov/)

Banks Pumping Plant

Describes how this pumping plant lifts water 244 feet into the California Aqueduct, where it flows south to the San Luis Joint-Use Facility.

Be a Mentor

Describes DWR's Mentor Programs.

Be Winter Wise!

Explains winter weather preparedness before, during, and after a storm.

California Aqueduct Fishing Safety

Explains basic safety tips while fishing near the California Aqueduct (also in Spanish and various Asian languages).

Fact Sheet on California Department of Water Resources

Includes the Department's mission statement, organization chart, major divisions and their responsibilities, and the State Water Project.

California's State Water Project

Presents a condensed overview of the SWP, its history, future, the environment, its route from the Upper Feather River Lakes to the Delta, pumping and power plants, and benefits of the SWP.

California's Water

Promotes DWR's visitors facilities.

Castaic Lake

Describes this lake built to provide emergency storage during shutdown of the California Aqueduct to the north, assuring water deliveries to west branch users.

Coastal Branch: The Central Coast's Link to the State Water Project

Explains the purposes of the Central Coast Branch and its benefits to the SWP.

Office of Water Education (continued)

Devil Canyon Powerplant

Describes one of the largest hydroelectric powerplants of the State Water Project.

Easy Ways to Save Water in the Home

Describes three home water wasters and ways to conserve water.

Edmonston Pumping Plant

Describes the largest pumping facility of the State Water Project, raising water nearly 2,000 feet up the Tehachapi Mountains through a series of tunnels into Southern California.

Feather River Fish Hatchery and Teacher's Guide

Explains the hatchery's purpose and its design.

Fishing Along the State Water Project

Gives safety tips for fishing along the California Aqueduct.

Flood Fighting At Home

One-page flier explains how to fill a sandbag. (Available in English and Spanish.)

Flood Forecasting in California

Includes brief information about floods, how river forecasts are made, what forecasts are available, how to use a river forecast, and where to get a forecast.

Lake Perris

Describes this multipurpose facility, providing water supply, recreation, and fish and wildlife enhancement at one of the most used lakes in the State Park system.

Los Banos Grandes Offstream Storage Project

Explains how Los Banos Grandes could store excess water pumped south from the Delta through the California Aqueduct during wet months.

The North Bay Aqueduct

Describes the North Bay Aqueduct, part of the State Water Project, and the 27-mile underground pipeline serving municipal and industrial water users in Napa and Solano Counties.

Office of Water Education (continued)*Oroville-Thermalito Complex*

Describes Oroville-Thermalito Complex water storage and electrical generation facility for the State Water Project.

Pyramid Lake

Describes this reservoir of the State Water Project, which delivers water to Los Angeles and other Southern California coastal cities. It also provides regulated storage for Castaic Powerplant and flood protection along Piru Creek.

Quail Lake

Describes one of the 29 storage facilities of the State Water Project, created by cataclysmic movement of the San Andreas Fault and enlarged to move water safely across the San Andreas Fault.

Safety Along the State Water Project

Includes safety tips when fishing, boating, and walking near the State Water Project facilities.

San Luis Joint-Use Complex

Explains the San Luis Joint-Use Complex which serves the California State Water Project and the federal Central Valley Project. The joint-use complex includes O'Neill Dam and Forebay, Sisk Dam, San Luis Reservoir, Gianelli Pumping-Generating Plant, Dos Amigos Pumping Plant, and a 103-mile portion of the California Aqueduct.

Silverwood Lake

Describes this State Water Project reservoir. At an elevation of 3,500 feet, Silverwood is the highest SWP reservoir in Southern California. The reservoir provides water storage as well as recreation.

Skinner Fish Facility

Explains how fish are kept away from pumps that lift water into the California Aqueduct.

State Water Project Facilities Map

Contains a map showing powerplants, pumping plants, and pump generation powerplants along the SWP (also in Spanish, German, Japanese, and Chinese).

Office of Water Education (continued)*State Water Project Recreation Facilities*

Contains maps of the State Water Project's lakes and recreational opportunities from the Sierras to Southern California—includes fishing, boating, camping, hiking, and bicycling sites.

South Bay Aqueduct and Lake Del Valle

Describes the Del Valle Dam reservoir, which provides flood control reserve and recreation.

Upper Feather River Lakes

Describes the three Upper Feather River Lakes—Antelope, Frenchman, and Davis—that mark the start of the State Water Project. Water releases from these lakes enhance fish and wildlife in the area and supplement water supplies to the Sierra Valley, Plumas County, and the city of Portola.

A Visitor's Guide to Vista del Lago

Describes Vista del Lago Visitors Center, which provides an overview of the State Water Project and the role of water in California. This brochure highlights the features of the Visitors Center (also available in Spanish).

Warne Powerplant

Explains the powerplant's design, which recaptures energy expended while pumping water through the State Water Project.

We're Saving Fish!

Describes the Bay Delta Enhanced Enforcement Project, which is dedicated to reducing the illegal harvest of striped bass, salmon, steelhead, and other fish in the Sacramento-San Joaquin Delta and San Francisco Bay.

150 Years of Water History

Provides a chronological summary of California's water history, including the development of the State Water Project.

OFFICE OF WATER EDUCATION Sacramento

Student Workbooks

California Water Works...and Why It Does

A colorful comic book character, Professor Goodwater, leads students through the water cycle, showing them how water is delivered through California's built and natural water systems. Water conservation guidelines are also provided. Appropriate for grades 4-8. (Available in English and Spanish.)

The Safety Adventures of Albert & Einstein

The Department's safety mascots teach children water safety using puzzles and comics. Also available are Albert and Einstein pencils, pencil cases, rulers, and book-marks.

Water and Me

This coloring and activity book for grades K-2 includes simple puzzles and matching activities that teach about water use, the importance of clean water, and the forms water takes. It includes a 2-page illustration of the water cycle.

Teacher's Guide & Student Workbooks

Water Fun

This colorfully-illustrated comic book has stories, games, and puzzles designed to teach students about the water cycle and water conservation. The teacher's guide has spinoff ideas, background information, and a water vocabulary list. Appropriate for grades 1-4.

Captain Hydro

(Teacher's guide is out-of-print)

This comic book story about Captain Hydro, hero of water conservation, is for grades 5-8. Captain Hydro battles his foe, the Water Bandit. The readings, worksheets, and projects teach about the water cycle, uses of water, water treatment, and conservation. The teacher's guide includes suggestions for follow-up activities and an extensive water bibliography. (Spanish version, *Captain Tlaloc*, is also available.)

The Further Adventures of Captain Hydro

In this colorful student comic book for grades 6-9, Captain Hydro continues to battle the Water Bandit. The teacher's guide is a resource of reproducible student worksheets and lessons about water in the context of world history and geography (ancient civilizations to 500 A.D.) It includes a glossary of water terms.

Some Things Fishy

This teacher's guide of 12 lessons on salmon and steelhead covers such topics as anatomy, adaptations, life cycles, habitat, genetics, and the role hatcheries play. The lessons are meant to be used in the classroom before or after a field trip to the Feather River Fish Hatchery. The guide includes information on how to visit the hatchery and contains a glossary and a list of available supplemental resources. Appropriate for grades 4-6.

Hands-On Water Activities for Teachers*All About Water*

This AIMS-style teacher's guide for kindergartners through third graders contains 26 lessons integrating science, math, language arts, geography, art, music, drama, and health. The major themes are Systems and Interaction, Energy, Stability, and Scale and Structure. Water topics include where water comes from, the water cycle, groundwater, water pollution, and conservation. A storyline can be used to connect lessons using puppets and scenery.

Water is Your Best Friend

This series of hands-on experiments is designed to (1) convey the internal roles of water in our bodies and in plants; (2) acquaint students with water in three different guises—solid, liquid, and gas (water cycle); and (3) introduce students to methods of collecting and storing water, water use and conservation at home and at school, and filtering water to clean it. It includes two black and white posters of the water cycle and California's water resources. Appropriate for grade levels K-3.

Teacher's Guide for Hands-On Water Activities

This guide features four hands-on water science activities developed by teacher Gil Yee. A water tape measure illustrates the world's distribution of water. A water polo activity teaches water surface tension. A Cartesian diver demonstrates how pressure to a plastic water bottle affects a floating eye dropper inside. Students can also make a Solo cup rain gauge. For teachers of grades 1-6.

Water Precious Water

These sample lessons from *Water Precious Water* were developed by AIMS. The guide includes a cooperative learning lesson in which students learn a variety of interesting

facts about water and a series of four activities that deal with some of the properties of water. Appropriate for grades 4-6.

Flannel Board Stories

Flannel board stories include a script for teachers to follow, a vocabulary list of water-related words, and directions for making the flannel board and characters.

Water is Peter's Best Friend

This story is designed to help teachers explain the basic concepts of water to grades K-2. It teaches the importance of water, where it comes from, and why we should use it wisely, using the illustrated story of Willy the Water Droplet and his friend Peter as they explore the nature and uses of water.

Peter's Magical Water Journey

Designed to help teachers explain the basic concepts of water to students in grades 2-4. This story covers the water cycle, water uses, and conservation in more detail, using an older Peter and more illustrations than the K-2 version.

Wall Posters

One copy per teacher

How We Can Save Water

This colorful 24-inch by 16-inch poster illustrates ways we can save water (appropriate for all grades.)

California State Water Project Map

This map of California shows topography and the major natural and built water systems (federal, State, and local). It provides an overview of the SWP and shows various SWP facilities, including visitor centers. Appropriate for grades 4 and up.

Albert & Einstein's 'Wear A Life Jacket'

DWR's water safety mascots, Albert and Einstein, urge students to wear a life jacket and identify other objects that can be used as life preservers. Appropriate for grades K-6.

Water Cycle

This colorful poster illustrates the water cycle.

Resource Materials

Environmental Education Compendium for Water Resources

Co-produced with the Department of Education and other water organizations, this book provides 109 references to various water curriculum, giving each a report card grade based on teacher ratings. Pages include descriptive information on cost and how to order materials. Water topics include groundwater, wetlands, watersheds, water supply, water conservation, properties of water, the water cycle, water pollution, and water use conflicts. One copy per teacher.

Water Conservation Class Pledge with Stickers

This pledge, four sentences within a water drop, is a short verse students recite pledging to use water wisely. Colorful stickers read “I Make Every Drop Count.” Appropriate for grades K-4.

Video Catalog

This catalog of DWR-produced videos describes access to the free lending library. The catalog includes two newly produced videos for children, *The Water Cycle* and *Water—Who Needs It?* Teacher activity packets are free.

Parent/Student Water Conservation Checklist

This question and answer checklist students can take home and review with their parents. It includes suggested actions and parent signature box. Appropriate for grades 4-8.

Water Facts & Fun

This catalog includes photographs and descriptions of the school education materials DWR offers free to teachers. The brochure opens up to a 22-inch by 17-inch water cycle poster and mail-back order form. This catalog is also available on the Web at:

www.dwr.water.ca.gov/ and clicking on Publications.

BULLETINS AVAILABLE 1955-1998

**Note: Numbers missing from the sequential list
indicate that the bulletin is out of print.
(For bulletins issued from 1922-1955, see Bulletin 170-69.)**

Number	Title and Publication Date	Price
4	Policies & Goals for California Water Management: The Next 20 Years, January 1982	2.00
17-88	Dams Within Jurisdiction of the State of California, October 1988	4.00
17-93	Dams Within Jurisdiction of the State of California, June 1993	5.00

Kaweah River Flows, Diversions and Storage Bulletin 49 Series

49-E	(for 1970-75), April 1978	Free
49-F	(for 1975-1980), September 1986	Free
63-5	Sea Water Intrusion in California, Inventory of Coastal Ground Water Basins, October 1975	5.00
68-73	Inventory of Waste Water Production and Waste Water Reclamation Practices in California, April 1975	1.50

California High Water Bulletin 69 Series

69-66	1965-66, August 1967	1.00
69-67	1966-67, June 1968	1.00
69-69	1968-69, June 1970	2.00
69-72	1971-1972, November 1973	3.00
69-73	1972-1973, December 1974	2.00
69-74	1973-1974, November 1974	3.00
69-75	1974-1975, February 1976	3.00
69-80	1979-1980, November 1981	3.00
69-82	1981-82, August 1983	3.00
69-83	1982-1983, July 1984	3.00
69-84	1983-1984, March 1985	3.00
69-85	1984-85, September 1986	2.00
69-86	1985-86, May 1988	3.00

**NOTE: For water years 1975-76, 1976-77, and 1977-78,
see the Bulletin 202 Series.**

73-79	Evaporation from Water Surfaces in California, November 1979	3.00

Water Well Standards: State of California Bulletin 74 Series

74-5	Water Well Standards: San Joaquin County, July 1969	1.00
74-5	Appendix E: Formation Testing, March 1965	0.50
74-7	Arroyo Grande Basin, San Luis Obispo County, July 1971	1.50
74-81	State of California, December 1981	O.P.
74-90	California Well Standards, June 1991 (released in December) (Supplement to Bulletin 74-81)	10.00
76-81	State Water Project-Status of Water Conservation and Water Supply Augmentation, November 1981	5.00

Water Wells and Springs in Southern California Bulletin 91 Series

91-18	San Luis Rey River Valley Area, San Diego County, May 1971	4.00
91-19	Harper, Superior, & Cuddeback Valley Areas, San Bernardino County, May 1971	2.00
91-20	Western Part of the Upper Santa Margarita Watershed, Riverside & San Diego Counties, August 1971	4.00
91-21	Ivanpah Valley, San Bernardino County, January 1972	2.00
91-22	Eastern Part of the Upper Santa Margarita Watershed, Riverside & San Diego Counties, August 1974	3.00
91-23	Palo Verde Valley, Riverside & Imperial Counties, October 1978	5.00
91-24	Sources of Powerplant Cooling Water in the Desert Areas of Southern California, August 1979	3.00
94-17	Land & Water Use in the Feather River Hydrographic Unit, September 1967	3.50
103	San Luis Obispo & Santa Barbara Counties Land & Water Use Survey, 1959, June 1964	2.00
104-8	Planned Utilization of Water Resources in Ventura County, November 1976	3.00
104-11	Meeting Water Demands in Sacramento County, June 1975	3.00

Bulletin 113 Series

113-3	Vegetative Water Use in California, 1974, April 1975	O.P.
113-4	Crop Water Use in California, April 1986	5.00
117-16	Recreation Development at Hesperia Aquatic Recreation Area, April 1974	1.00

Evaluation of Groundwater Resources Bulletin 118 Series

118	California's Ground Water, September 1975	3.00
118-80	Ground Water Basins in California, January 1980	1.00
118-1	South San Francisco Bay: V. 1 South Bay, Fremont Study Area, August 1968 V. 2 Additional Fremont Study Area, August 1973	O.P. 3.00

	V. 3 Northern Santa Clara County Area, December 1975	3.00
	V. 4 South Santa Clara County Area, May 1981	O.P.
118-2	Livermore & Sunol Valleys, June 1974	3.00
	Appendix A, Geology, June 1974	1.75
118-4	Sonoma County:	
	V. 2 Santa Rosa Plain, September 1982	7.00
	V. 3 Petaluma Valley, June 1982	7.00
	V. 4 Sonoma Valley, February 1982	4.00
	V. 5 Alexander Valley & Healdsburg Area, June 1983	4.00
118-6	Sacramento Valley, August 1978	10.00

Water Conditions in California Bulletin 120 Series

120-85	1984-85 water year:	
	Reports 1 through 4	Free
	Fall Report, October 1985	Free
120-86	1985-86 water year:	
	Reports 1 through 4	Free
	Fall Report, October 1986	Free
120-87	1986-87 water year:	
	Reports 1 through 4	O.P.
	Fall Report, October 1987	Free
	Special Dry Year Report, October 1987	Free
120-88	1987-88 water year:	
	Reports 1 through 4	Free
	Fall Report, October 1988	Free
120-89	1988-89 water year:	
	Reports 1 through 4	Free
	Fall Report, October 1989	Free
120-90	1989-90 water year:	
	Reports 1 through 4	Free
	Fall Report, October 1990	Free
120-91	1990-91 water year:	
	Reports 1 through 4	Free
	Fall Report, October 1991	Free
120-92	1991-92 water year:	
	Reports 1 through 4	Free
	Fall Report, October 1992	Free
120-93	1992-93 water year:	
	Reports 1 through 4. October 1993	Free
120-94	1993-94 water year:	
	Reports 1 through 4. October 1994	Free

120-95	1994-95 water year: Reports 1 through 4 October 1995	Free
120-96	1995-96 water year: Reports 1 through 4. October 1996	Free
120-97	1996-97 water year: Reports 1 through 4. October 1997	Free
120-98	1997-98 water year: Reports 1 through 4. October 1998	Free
124-2	(as of) 1970, March 1977	3.00
124-3	(as of) 1979, May 1982	3.00

Hydrologic Data Bulletin 130 Series

130-69	1968-69 water year: Vol. 2: Northeastern California, May 1971 Vol. 5: Southern California, February 1971	O.P. Free

Water Conditions and Flood Events in California Bulletin 202 Series

202-76	1975-76 water year, July 1977	Free
202-77	1976-77 water year, September 1978	Free
202-78	1977-78 water year, December 1979	3.00

NOTE: Data for earlier and subsequent water years are presented in the Bulletin 69 series. See Bulletin 69.

203	Performance of the Oroville Dam and Related Facilities During the August 1, 1975 Earthquake, April 1977	Free
203-78	The August 1, 1975 Oroville Earthquake Investigations, February 1979	5.00
	Appendix L: Cyclic Behavior of Dense, Coarse-Grained Materials in Relation to the Seismic Stability of Dams, June 1979	Free
203-88	The August 1, 1975 Oroville Earthquake Investigation Supplement to Bulletin 203-78, May 1989	5.00
204	Water for Power Plant Cooling, July 1977	Free
206	Impact of Severe Drought in Marin County, November 1979	2.00
207	Land Use Within the California Coastal Zone, October 1978	Free
209	Plants for California Landscapes, A Catalog of Drought-Tolerant Plants, February 1981	O.P.
210	Measuring Economic Impacts—The Application of Input-Output Analysis to Water Problems, March 1980	3.00

211	Small Hydroelectric Potential at Existing Hydraulic Structures in California, April 1981	5.00
	Appendixes (bound separately), April 1981	10.00
212	Outlook for Water Consumption by California's Feed & Forage Industry Through 2010, February 1982	3.00
213	Captured Rainfall, May 1981	1.00
216	Inventory of Instream Flow Requirements Related to Stream Diversions, December 1982	5.00

DIVISION AND DISTRICT REPORTS 1990-1998

A limited number of the following publications have been printed. When Department supplies have run out, they may be seen at Department offices and at legal depository libraries; or the Department will, on request, reproduce the publication upon payment of reproduction costs. The reports are listed below by originating office and in chronological order. Reports no longer in print are listed as O.P. (out-of-print).

OFFICE OF STATE WATER PROJECT PLANNING Sacramento

Title and Publication Date	Price
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, July 1998	Free

DIVISION OF PLANNING and LOCAL ASSISTANCE Sacramento

Title and Publication Date	Price
Stanislaus River Basin and Calaveras River Water Use Program - Scoping Report, January 1991	Free
Water Conservation News Index, Volume III (1990), February 1991	Free
Proposed South Delta Water Management Program, Temporary Barriers Project - Initial Study and Negative Declaration, February 1991	O.P
Well Permit Requirements, February 1991	Free
Urban Drought Guidebook, March 1991	Free
Groundwater in Fractured Hard Rock, Water Fact No. 1, April 1991	Free
State Water Project: Coastal Branch, Phase II and Mission Hills Extension, May 1991	
Volume I (Revised draft EIR, dated June 1990)	Free
Volume II (Public comments on draft EIR and response to comments)	Free
Industrial/Commercial Drought Guidebook for Water Utilities, June 1991	Free
California Bulk Drinking Water Haulers, July 1991	Free
Summary of Water Well Drillers' Reports Received from 1974-1990, July 1991	Free
7-Steps for Managing Groundwater Supplies, Water Fact No. 1, July 1991	Free
Early Life Stages and Early Life History of the Delta Smelt in the Sacramento-San Joaquin Estuary, with Comparison of Early Life Stages of the Longfin Smelt, August 1991	Free
Los Banos Grandes Facilities Sycamore Pilot Program, August 1991	Free
Los Banos Grandes Technical Summary of Engineering Features, August 1991	Free

Division of Planning and Local Assistance (continued)

Title and Publication Date	Price
Scoping Report for the Proposed Western Suisun Marsh Salinity Control Project, August 1991	Free
Water Recycling 2000, California's Plan for the Future, September 1991	O.P.
Results of a Spatially Intensive Survey for <i>Potamocorbula amurensis</i> in the Upper San Francisco Bay Estuary, October 1991	Free
San Joaquin River Management Plan, October 1991	Free
Trihalomethane Formation Potential in the Sacramento-San Joaquin Delta Mathematical Model Development, October 1991	2.00
Evaluate the Performance of Your Irrigation System, December 1991	Free
Groundwater Management Districts or Agencies in California, Water Fact No. 4, February 1992	Free
Adjudicated Groundwater Basins in California, Water Fact No. 2, February 1992	Free
California Laws for Water Wells, Monitoring Wells, and Cathodic Protection Wells, May 1992	Free
Model Water Efficient Landscape Ordinance, June 1992	O.P.
Water Audit and Leak Detection Guidebook, Water Conservation Guidebook No. 5, June 1992	Free
California Well Standards Questions and Answers, Water Fact No. 5, 1992	Free
Quality Assurance Guidelines for Analytical Laboratories, September 1992	Free
Los Banos Grandes Facilities Sycamore Pilot Project, Report No. 2, December 1992	Free
Estimating Water Requirements for Landscape Plantings, 1992	Free
Action Plan for San Joaquin Fall Run Chinook Salmon Populations, January 1993	O.P.
Water Conservation News Index, Volume V (1992), February 1993	Free
Annual Report of the Municipal Water Quality Investigations Program, Efficient Water Management Practices for Agricultural Water Suppliers and On-Farm Biological Mitigation Plan, March 1993	Free
How Much Water Has Your Crop Used Since Your Last Irrigation?, September 1993	Free
Coastal Branch, Phase II General Mitigation Plan, September 1993	Free
Water Transfers in California: Translating Concept into Reality, November 1993	Free
Helping Businesses Manage Water Use—A Guide for Water Utilities, December 1993	Free
Final Program Environmental Impact Report, State Drought Water Bank, November 1993	Free
Final Environmental Impact Report, Addendum 2, State Water Project and Mission Hills Extension, February 1994	Free
Draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS) Practices, March 1994	Free
California Graywater Standards, March 1994	O.P.
Homeowners Guide to Graywater Use, April 1994	Free
Final Environmental Impact Report, State Water Project Mission Hills Extension, May 1994	Free

Division of Planning and Local Assistance (continued)

Title and Publication Date	Price
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, June 1994	Free
Los Banos Grandes Facilities Sycamore Pilot Project, Report 3, July 1994	Free
Five-Year Report of the Municipal Water Quality Investigations Program, November 1994	Free
Executive Summary of Five-Year Municipal Water Quality Investigation Program, November 1994	Free
Government/Utilities/Private Industry Partnership Program, December 1994	Free
Graywater Guide, Using Graywater in Your Home Landscape, December 1994	Free
Final Environmental Impact Report, Final Supplement, State Water Project and Mission Hills Extension, January 1995	Free
Initial Study and Negative Declaration for Proposed Interim North Delta Program Land Purchase, March 1995	Free
Final Environmental Impact Report, Addendum 5, State Water Project: Coastal Branch, Phase II and Mission Hills Extension, May 1995	Free
Methodology for Flow and Salinity in the Sacramento-San Joaquin Delta and Suisun Marsh, 16th Progress Report, June 1995	Free
Sacramento-San Joaquin Delta Atlas, July 1995	5.00
Compilation of Federal and State Drinking Water Standards and Criteria, July 1995	Free
Agricultural Efficient Water Management Practices That Stretch California's Water Supply, August 1995	Free
CIMIS Agricultural Resource Book, September 1995	Free
Guidelines for DWR Publications, October 1995	Free
Los Banos Grandes Facilities Sycamore Pilot Program—Report Number Four, December 1995	Free
CIMIS Alert, January 1996	Free
CIMIS Urban Resource Book, January 1996	Free
A Proposed Framework for Regulating the Indirect Potable Reuse of Advanced Treated Reclaimed Water by Surface Water Augmentation in California, January 1996	Free
Program Directory, April 1996	Free
California State Water Project Sanitary Survey, April 1996	Free
Methodology for Flow and Salinity Estimates in the Sacramento-San Joaquin Delta and Suisun Marsh, 17th Progress Report, June 1996	O.P.
Water Resources Center Report No. 88, Making the Connections: Proceedings of the 20th Biennial Conference on Groundwater, June 1996	Free
Interim South Delta Program, Volumes I & II, July 1996	Free
Summary Report: Results of Eight Demonstration and Study Projects in the San Joaquin Valley to Reduce Agricultural Drainage, August 1996	Free
Municipal Water Quality Investigations Program: Annual Report Water Year 1995, August 1996	Free
California Laws for Water Wells, Monitoring Wells, Cathodic Protection Wells, Geothermal Wells, April 1997	Free

Division of Planning and Local Assistance (continued)

Title and Publication Date	Price
Study of Potential Water Efficiency Improvements in Commercial Businesses Final, April 1997	Free
Compilation of Federal and State Drinking Water Standards and Criteria (Quality Assurance Technical Document 3), June 1997	Free
Methodology for Flow and Salinity Estimates, Sacramento-San Joaquin Delta and Suisun Marsh, June 1997	Free
Historic Rainstorms in California, August 1997	Free
Quality Assurance Guidelines for Analytical Laboratories (Technical Document 1), September 1997	Free
Drainage Management in the San Joaquin Valley: A Status Report, February 1998	Free
Quality Assurance Management Plan for Environmental Monitoring Programs (Quality Assurance Technical Document 5), June 1998	Free
The North Bay Aqueduct Barker Slough Watershed Water Quality, Phase I Report, July 1998	Free
Guidelines for Preparing Quality Assurance Management Project Plans (Quality Assurance Technical Document 6), August 1998	Free
1997 Compendium of Water Quality Investigations in the Sacramento River Watershed, Sacramento-San Joaquin Delta and San Francisco Bay Area, August 1998	10.00
Department of Water Resources Publications 1997, Bulletin 170-97, September 1998	Free
The California Water Plan Update, Bulletin 160-98 Executive Summary, Volume 1, Volume 2, November 1998	25.00

Department of Water Resources--Main Page

wwwdwr.water.ca.gov

Division of Flood Management

The Floodplain Management site provides information on state floodplain management guidelines and model ordinances.

www.fpm.water.ca.gov/

Bulletin 120

This site has the latest Bulletin 120 information. Bulletin 120 is a monthly publication containing forecasts of the volume of seasonal runoff from the state's major watersheds, and summaries of precipitation, snowpack, reservoir storage, and runoff in various regions of the State. This Web page will feature PostScript and HTML versions of the Bulletin and weekly updates.
